**25 Years of Partnerships
for Healthy Oceans,
People and Economies**

Moving as One with the
Global Ocean Agenda

Carrying the theme, "25 Years of Partnerships for Healthy Oceans, People and Economies: Moving as One with the Global Ocean Agenda", the EAS Congress 2018 will convene a broad range of stakeholders including national and local governments, the United Nations system, intergovernmental organizations, bilateral and multi-lateral projects, international financial institutions, non-governmental organizations, civil society, the scientific community, the private sector, and other stakeholders.

Over 1000 Participants are expected to attend from within the region and internationally, from Ministers of East Asian Countries to prominent international ocean experts to local community representatives from our host country, the Philippines.

E X H I B I T O R

Overview

One of the key features of the EAS Congress is the Exhibition, which will run in parallel with the International Conference of the EAS Congress. This Exhibition provides an opportunity for organizations to showcase their innovations and progress on various aspects of sustainable coastal and ocean management, including tools, technologies, products, experiences and best practices. Such actions support the UN Sustainable Development Goals (particularly SDG 14), the Sustainable Development Strategy for the Seas of East Asia (SDS-SEA), and blue economy development in the region. The Exhibition serves as:

An Information Hub

to share knowledge on the latest solutions supporting implementation of policies, practices and technologies for coastal and marine sustainable development

A Platform for Partnership

to network and connect with other experts and organizations working to accelerate the achievement of sustainable development targets for coasts and oceans

A Community of Contribution

for the planning and development of an ocean- based blue economy, providing a venue for sharing contributions and initiatives within the ocean community
